

School Goal					
Increase the percentage of students engaged in hybrid lessons in classrooms on a weekly basis utilizing technology from 0% to 50% by year 2023 as measured by the NEPF Administrative observations.					
Improvement Strategies	Intended Outcomes	Event 8: Status Check 3	Lessons Learned (Now)	Next Steps	Needs
Staff Development Days geared towards effective hybrid instruction strategies.	Increased student engagement.	Strong	Teachers continue to use technology when they become familiar with its use. Teachers have become very comfortable with Canvas, Nearpod, and other applications introduced to them by both CCSD and their colleagues.	Due to staff development days being done for the 21-22 school year, it is time to start planning for the 22-23 school year. We continue to plan to incorporate staff surveys to include input for technology needs/goals as well as training needs.	Teachers continue to need additional funding for applications like Kahoot which is now charging for its services. Teachers continue to need more time during the contracted year in order to both learn and implement these strategies into their lesson plans.
School Goal					
Increase the number of formal professional learning opportunities organized on site that teachers will attend during Staff Development Days from 0% to 50% by year 2023 as measured by attendance/tasks completed.

Restructure Staff Development Days.	Teachers become more proficient with technology.	Strong	Teachers continue to use technology when they become familiar with its use. Teachers have become very comfortable with Canvas, Nearpod, and other applications introduced to them by both CCSD and their colleagues.	Due to staff development days being done for the 21-22 school year, it is time to start planning for the 22-23 school year. We continue to plan to incorporate staff surveys to include input for technology needs/goals as well as training needs.	Teachers continue to need additional funding for applications like Kahoot which is now charging for its services. Teachers continue to need more time during the contracted year in order to both learn and implement these strategies into their lesson plans.
School Goal					
Increase the percentage of students who overall, completely feel like they belong at our school from 10% (fall) to 15% (winter) to 25% (spring) by spring 2022 as measured by the Panorama Education Survey.					
Improvement Strategies	Intended Outcomes	Event 8: Status Check 3	Lessons Learned (Now)	Next Steps	Needs
Engage students in both activities and athletic programs.	Students build self-confidence and buy into the overall culture of classrooms and the school at large.	Strong	Coaches/Advisors have come to the conclusion that both advertising as well as having well-rounded athletic/activities programs are essential for participation. Our Activities Office continue to facilitate student interest and it has led to almost doubling the amount of clubs offered to our students to participate in after school. Our Athletic Office continues to add more athletes to its rosters by retaining student athletes.	Continue to provide students with well-rounded athletic and activity opportunities to enhance their high school experience in a positive manner. Continue adding clubs and continue adding athletes to our already existing programs. Administer club interest surveys to solicit new areas of interest.	Fundraising ideas continue to be needed for both clubs and athletics in order to continue providing students with the varied opportunities they now have at their disposal. Community sponsors would add a great deal of support and contributions to both our clubs and athletic programs as well as a partnership with our neighbors.
