Please respond to the following questions in the space provided. Your responses will be shared with the Coronado High School community via the CHS website.

Why are you interested in serving on the Coronado High School Organizational Team?

Last year was my first time being on the School organization team. I enjoyed being able to be more involved in the schools activities. Meeting with other members to support the principal with the schools plan of operation. I am excited to be able to have that opportunity again this year.

Please share your relevant experiences, skills/competencies, or characteristics which will assist our School Organizational Team in our collaborative efforts to plan for the future.

Since my children were in Elemenstang school I have been involved in some fashion. From room mom to PTA president. I enjoy being a part in submitting ideas and giving pros/cons to ideas of others.

Why are you interested in serving on the Coronado High School Organizational Team?

I am interested in serving on the Coronado SOT team as a way to be involved with the school. My daughter is currently a Senior and has had a great experience at the school. I also have a 7th grader at Del Webb and a 3rd Grader at Wolff. So I will have 2 more kids go through Coronado and I want to make sure they also have a good experience.

Please share your relevant experiences, skills/competencies, or characteristics which will assist our School Organizational Team in our collaborative efforts to plan for the future.

I have served on the SOT team for the past two years and have found it a great way to stay involved with Coronado. I have also served on PTA and the SOT boards at Wolff Elementary.

I have owned my own business for 3 years and have the flexibility to attend meetings

Please respond to the following questions in the space provided. Your responses will be shared with the Coronado High School community via the CHS website.

Why are you interested in serving on the Coronado High School Organizational Team?

I would like to serve on the Coronado High School Organization Team because of several reasons.

First, this will be my 6th and final year at Coronado with my youngest son now a Senior. I want to be involved in helping this committee make good decisions that will improve his education and his experience at Coronado High School. Me and my family have lived in several states. These experiences have given us an opportunity to see how different schools operate. I believe this helps me be well- rounded on my views, on how decisions made by school officials can impact students in different ways.

Secondly, I believe every student deserves a good education in a safe environment. When giving input on things that impact my son, I will keep other students and families in mind. Making contributions to those discussions based on what is best for all students. Safety, technology, the fine arts program, good one on one instruction, developing good relationships within the school place and helping the community. These are the things I see as most important to all our students at Coronado.

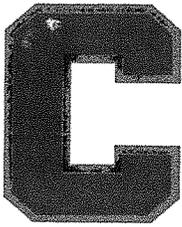

Lastly, I want to make sure the fine arts program is represented on this committee.

Please share your relevant experiences, skills/competencies, or characteristics which will assist our School Organizational Team in our collaborative efforts to plan for the future.

During the 2019-2023 school years I had the privilege to serve on the Coronado SOT. Previous to that I served 2 years on the Del Web SOT from 2017-2019. During this time, I learned a lot about the school planning and district budget process.

Schools continue to have to make some tough decisions due to their budget constraints. As we all navigate through this next school year, there are more important budget decisions that will have to be made that will impact all our students at Coronado. I am qualified and ready to help make good decisions based on what is best for all in safety, technology, smaller class size and good relationships.

My professional life experience - I am director of operations for a large company that operates in 48 states. I have direct P&L responsibility for +\$70M in business in 8 western states.

Why are you interested in serving on the Coronado High School Organizational Team?

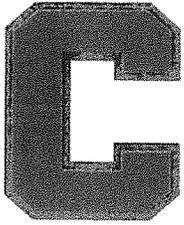

Working in the education industry for over 15 years, I understand how important administration and its functions are to the effectiveness of teaching. The ability of operations to run smoothly allows for the instructors to focus all their attention on educating our children. Budgets spent in appropriate areas of the school, performance measures alignment with educational delivery, and proper staffing to achieve the highest levels of achievement are all important and require both staffing within the organization and parent involvement outside of school walls. My focus is to provide any and all assistance as a parent of a Coronado High School student, which includes both my professional experience as well as my commitment to my boys growing up in this school district.

Please share your relevant experiences, skills/competencies, or characteristics which will assist our School Organizational Team in our collaborative efforts to plan for the future.

I have 7 years of experience being a part of School Organizational Teams at Twitchell Elementary, Bob Miller Middle School, and Foothill High School. This has included participation in performance plans, annual budgets, and two Principal hirings at Twitchell and Bob Miller.

My professional career includes working in educational institutions for over 15 years as both Director of Administration and Director of Finance. Responsibilities included budgeting, expense and revenue analysis, staffing needs, program development, marketing, strategic planning, and performance management. My comprehensive experience has played a positive role in my prior School Organizational Team (SOT) positions I have had.

Currently I work for the City of Henderson as a Manager of Business Planning and Analysis in the Parks and Recreation Department and have been with the city for 16 years. Our department works closely with the school district on providing opportunities for students on a daily basis. My position includes working with financial management, capital projects, strategic planning, and operational effectiveness, and performance measures.

Why are you interested in serving on the Coronado High School Organizational Team?

I have been a part of the Coronado family and community since my son started in 2016. My daughter is a senior and my youngest will be a freshman next year. I would be honored to help Coronado in anyway I can as I am grateful for all it has done for my family.

Please share your relevant experiences, skills/competencies, or characteristics which will assist our School Organizational Team in our collaborative efforts to plan for the future.

I am a local attorney who owns his own practice. I have been on SOT since 2016. I have strong relationships with staff and personnel. I teach early morning seminary each morning strengthening my relationships with the students. I am a generous donor to multiple teams, clubs and classes.

Please respond to the following questions in the space provided. Your responses will be shared with the Coronado High School community via the CHS website.

Why are you interested in serving on the Coronado High School Organizational Team?

As a parent, I've often wondered what's behind the rationale for some of the decisions made specific to our school. I hope to get a better understanding by being on the Team. In the long run, I want to be more of an advocate for the processes, our students, Principal and staff.

Please share your relevant experiences, skills/competencies, or characteristics which will assist our School Organizational Team in our collaborative efforts to plan for the future.

As a mother of two daughters with special needs in the CCSD and charter school systems, I've had the opportunity to view how different teaching/administration formats worked. As a career hospitality professional, I've elevated my detail, critical and proactive thinking skills. As an active participant in this thing called life, I've learned the importance of kindness, patience and grace.
